Clark county appears to be unanimous for John Sherman for president and Foraker for governor.

The publication of the Public Good, the official prohibition organ in Massachusetts, has been suspended.

If President Greely wishes to form a stable ministry he should put nothing but "wheel-horses" in it.

Sherman does not want to govern and Foraker is not a candidate for either the presidency or vice presidency.

We notice a statement in the papers to the effect that Mr. George is opposed to Mr. Blaine. We have no doubt whatever that Mr. Blaine is opposed to Mr. George.

The Xenia Gazette is trying to persuade people that strawberries and cream are a good combination. The editor is evidently trying to get up a quarrel with somebody; a true friend of spring onions, perhaps.

Before we forget it, we must put on record an approval of the fine and strong speech which our able city solicitor, Mr. Augustus N. Summers made in the wigwam, Wednesday, in nominating Judge Miller. It was a master-piece.

Twenty-five thousand people witnessed the unveiling of the statue to General Steadman, "the savior of Chickamauga," at Toledo, Thursday, erected with the money of Mr. W. J. Finlay, a Toledo brewer. Governor Foraker presided and a large number of distinguished persons were present.

We were very sorry to hear, some time ago, of the serious illness of Mr. J. B. T. Marsh, treasurer of Oberlin college, and we were sorry to hear of his death. He was a gentleman of fine ability, of sterling character and of very pleasant personal qualities. He was for many years one of the editors of the *Advance*, Chicago, and better work was never expended on that paper than was done by Mr. Marsh.

Springfield will have a chamber of commerce. She has no particular need of one, as her business interests do not require housing, but since Findlay, Lima and Urbana are to have such organizations, she will follow suit merely to be in the fashion.

—Kenton Republican.
At the adjourned meeting of citizens, which will be called by the mayor in due time, a well warranted basis for a permanent organization will be reported and an organization can be materialized at once.

The impression has gained currency in some quarters—it is stated in so many words in the *Christian Union* of last week—that the *Illustrated Christian Weekly* has not been paying its own way, and that it is therefore a drain upon the treasury of the American Tract Society. This impression is entirely erroneous. The simple facts are that, beginning with 1875 to the present time, the paper has made a margin of profit above all its expenses. —*Illustrated Christian Weekly*, New York.

We are glad to see this announcement, and to believe that it is true. If the paper pays its way its publication should certainly be continued, for it is one of the most beautiful, instructive and wholesome papers printed. We have no doubt it reaches a class of people which could not be reached through any other agency of the Tract society.

SPRINGFIELD'S REAL ESTATE BOOM—IS IT HEALTHY?

Springfield has a real estate "boom," which is genuine and indisputable, and it is healthy. There has never before been known in this city anything like the extensive sales of building lots which are occurring here, this spring, from week to week, either in the number of lots sold or in the prices. How are we to account for this rather unexpected result? There has been no organized effort to appreciate the apparent values of real estate. The demonstrated fact is that a large number of people wish to buy building lots in Springfield; that they have the money to buy with, and that they are using it to make purchases. There has been no special "blowing" about the growth of the city. Indeed, there has been a marked absence of anything of the sort. Great factories have gone up from foundation to cupola, and other great factories have been greatly enlarged, with very scant recognition from the press of the city. Therefore, all must admit that the "boom" is legitimate—that it is some of its own accord, and we must concede, from the character of the buyers, that it is founded on substantial ideas and notions. It is a significant fact, too, that many of these lots purchased are to be rebuilt upon by buyers. It may be that this is due, in part, to the persuasive and sound logic of the real estate men, as shown in their advertisements and paragraphs in the *Republic*, which has convinced a large number of men that it is their interest to buy and build rather than rent; but the fact that several hundred new houses are to be built in the near future, and that new streets are to be opened and built upon far beyond the city limits, will not decrease the value of city realty property but rather appreciate it.

But let us look into the facts of the situation. Let any citizen take a west Main and Clifton street car and go to East street, and then walk out Champion avenue and take a look at the additions that have been made to the East street shops within a year, and bear in mind the fact that the five-story building now occupied by Messrs. E. W. Ross & Co. is to be vacated by this firm because it is needed for occupation by the East street firm. If these additions, built within a year, in the rear of the East street shops, had been erected in either Dayton, Xenia or Urbana, they would have revolutionized or crazed any one of them.

Then the same is true of the new millable shops and the new knife and bar works, both commenced within the year, at La Grange. The walls of these buildings have been going up very quietly, but they are immense establishments and their erection in either Cincinnati or Columbus would have been an event on which the people of either city would have congratulated themselves.

We have already repeatedly alluded to the very large Ross building, to be occupied by a strong firm which has come from New York state, brought its own capital and inventions and patents, bought a tract of land and erected a series of work shops, with its own power. Then several other manufacturing concerns have purchased ground and are preparing to erect very large shops. We know of at least three of these, and there are opportunities for securing the location of other foreign industries in this city.

Then, in addition to several fine and large business blocks, and expensive mansions that are to be erected, this season, the foundations will at least be laid, in 1887, for the new government building, the Warden free library building and the city hall and market house building.

These are doubtless among the reasons why there is an unprecedented demand for building lots. We do not say this by way of trying to nurse a "boom" or stimulate a demand for real estate, but for the purpose of giving a good reason for what has occurred. Then, in connection with all this, all must see that Springfield, with its beauty of situation and its metropolitan features—extensive and complete—is a city in which it is most desirable to live.

The abolition of separate schools for colored children brings with it a new and a more just discrimination of the worst kind. For the sake of apparent fairness, if for nothing else, the Springfield school board should have retained some of the colored teachers. Not for the sake of "appearances" but real "fairness" the board of education should have selected the best teachers that could have been secured for the money it had to appropriate—irrespective of color. If the colored teachers were better qualified than the same number of white teachers they should have been employed; if not, just as to both white and black pupils demands that they should have well qualified teachers, irrespective of color. The color line has been obliterated by law, and the colored teachers were better qualified than the same number of white teachers they should have been employed; if not, just as to both white and black pupils demands that they should have well qualified teachers, irrespective of color.

The Erie people are about to build two large iron steamers for service on Chautauqua lake. The two are to cost \$120,000, and they are to have a speed of twenty-two miles an hour and to run between Lakewood and the Chautauqua Assembly grounds. They will make the trip in three hours and ten minutes. They are to be built by the Cleveland Rolling Mill company, and are to be completed by August first. Commodore T. E. Grandin is to be in charge of the line. A two-hundred-thousand-dollar hotel is to be erected at Lakewood. The new Chautauqua lake railway is to be completed from Jamestown to Mayville and Westfield, at which point it will connect with the Lake Shore, at an early day.

The issue of the Indianapolis *News*, of May 26th, has 16 large pages, with 8 columns on a page—make 128 columns matter. The issue is largely devoted to sketches of Indianapolis features, all of which are carefully prepared and interesting. This magnificent issue of the best and most prosperous newspaper in Indiana will create a most favorable impression abroad of Indiana's capital city.

Rossuth in His Old Age.
I suppose that some of your readers would be surprised if told that the famous Hungarian patriot, Louis Rossuth, is still alive. But such is the case. He is living at Turin at the advanced age of 85. I have recently had two letters from him, giving news of the venerable statesman. Mr. St. L. A. Toubay, our consul at Turin, writes me that "the general lives in retirement and receives only semi-occasional visits from some few friends whom he especially desires to meet. Indeed, owing to his advanced age and consequent infirmities, he has renounced all active pursuits of any sort whatsoever." I make the following extract from the same subject from a Naples letter: "He spent last winter here with his son, Maj. Rossuth, who resides in Naples, and who is the magnate—'le Tom Scott'—of the whole western network of Italian railway roads, from the Corniche or Ligurian coast to the occidental tip of the boot." —Paris Cor. Chicago Inter Ocean.

Both the world broke its features speckle? And dusky tan your face o'erspan? Have you awful pimples, but no sweet dimples? Is your skin quite sallow, or greasy like talc? Are your hands a sight, and arms and neck a fright? Cease being homely, become at once comely. Use Champin's Liquid Pearl.

The sons of the late "Extra Billy" Smith, of Virginia, were fond of adventure. His oldest son, William Smith, was midshipman in the navy and was lost in the Indian war. Austin Smith, the great bowie knife fighter, was killed at the battle of Seven Pines. Peter Bell Smith was accidentally killed by a pistol, soon after the war. James Cady Smith and Colonel Thomas Smith figured prominently as duellists. Of "Extra Billy's" children but three survived him, a daughter, Colonel Thomas Smith and Captain Frederick Smith of New Mexico.

A Wall Street Man Cured of Scintaria by Alcock's Plasters.

"They" say Wall street is a wicked place and that men occasionally have worse troubles than physical ones. Yes, relief from physical pain gives the broker a wider margin in that it leaves him a clear head. Eugene Robbins, stock and bond broker, No. 34 Wall street, N. Y., says:

In 1881 I was confined to my bed by Sciatica. The pain not only went down my thigh, but affected by side as well. I suffered greatly, and after having been shut up for four weeks, determined to abandon doctors and their prescriptions, and try Alcock's Plaster. I placed two or three of these on my hip-bone and one on my side. I was completely cured in four days, and on the fifth day, after the application, was at my business in Wall street.

A talking canary has been discovered at Looesford, England. It belongs to a lady who has taught it to repeat several words and phrases and to imitate successfully the notes of other caged birds.

Save the Children. They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Alcock's English Remedy a positive cure. It saves hours of anxious watching. Sold by Frank H. Coblenz, corner Market and High streets.

Mrs. Cleveland objects to ingermings; she only wears one—her wedding band.

Don't take that "cocktail" in the morning. If you have a "swelled head," nauseated stomach, and unstrung nerves, resulting from the "convivial party last night," the sure and safe way to clear the cobwebs from the brain, recover rest for food, and tone up the nervous system is to use Dr. Pierce's "Pleasant Purgative Pellets." Sold by all druggists.

Clothing will make the man if he only sells enough of it at a good profit.

Alcock's Blood Elixir is the only feed. It is a positive cure for Ulcers, Eruptions or Syphilitic Poisoning. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it. Frank H. Coblenz, corner Market and High streets.

Monday is the busiest day in New York's big dry goods stores.

IT IS WONDERFUL how easily rheumatism begins, and how insidiously it grows in the system, until one is started to find himself in victim in either the acute or chronic form. It then learns the fearful tenacity of its grip and the utter powerlessness of the ordinary remedies to give relief. Probably to no disease have physicians given more study, and none has more completely baffled their efforts to provide a specific; and until Athliphore was discovered there was no medicine which would surely cure rheumatism, neuralgia and nervous or sick headache. Thousands of testimonials like the following prove beyond question that Athliphore is the only reliable remedy, and that it will do all that is claimed for it.

Mr. Josiah White, of New Paris, Ohio, said to our correspondent in reference to this being cured of rheumatism by the use of Athliphore: "It acted like a charm with me and I feel that I owe my present good health to the one bottle of Athliphore I used. It was about two years ago I had the rheumatism. I could scarcely get around and when I did manage to do so it was with great pain. I spent over thirty dollars during this attack with doctors not counting what I spent for liniments and other medicines. But none of them did me a particle of good. At last I heard of Athliphore; it was on Wednesday I commenced using it and continued taking regularly until I finished the bottle. On Friday I went out free from rheumatism. My legs were as good as ever, and from that day to this, now nearly two years since, I have not had a twinge of rheumatism. I have recommended it to many different sufferers and have been well paid for my trouble by seeing them benefited as I was."

Every druggist should keep Athliphore and Athliphore Pills, but where they can not be bought of the druggist the Athliphore Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.00 per bottle for Athliphore and 50c. for Pills.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of women, constipation, headache, neuralgia, rheumatism, Athliphore Pills are unequalled.
